OUTPOST 2

D I V I D E D D E S T I N Y

NEW!

The ultimate real-time space colony challenge!

They were Earth's last survivors, drifting through the universe in a cryogenic sleep while their computer-guided spacecraft searched for a place to establish a new beginning. Their voyage ended on a world they named New Terra. Though it was a world of only the barest resources, they called their colony Eden.

Some colonists wanted to conquer New Terra, others wished to adapt to its harsh environment. Unable to find common ground, a second colony was formed. But unseen disasters would

always drive the factions back together in fire and conflict. Your strategy and execution will determine who will survive.

Outpost 2: Divided Destiny is the all-new sequel to the most talked-about space strategy game of all time. Play as the leader of the original colony, or as the leader of the rebellious splinter colony in a game that combines an incredible new story with all

the best components of the original **Outpost**. New features include real-time game play, open-ended multi-player missions, over 2,000 types of terrain, and incredible 65,000-color graphics. Play challenging single-player modes, or play head-to-head via Internet, modem or network.

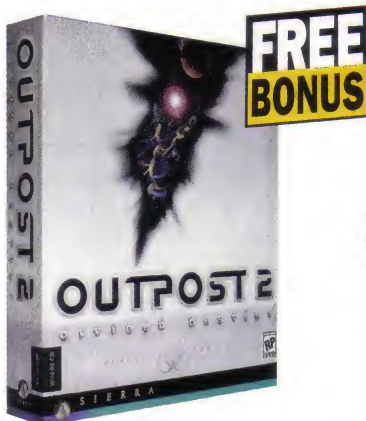

Natural disasters can strike your colony at any time.

Includes real-time multiplayer or challenging single-player game play.

Features over 2,000 types of terrain with 65,000-color graphics.

The Complete Flight

Sierra Pro Pilot™

Take to the skies with the new flight simulation that actually explores the magic of flight itself. **Sierra Pro Pilot** includes an impressive selection of five civilian aircraft you can fly. Each aircraft features a photorealistic instrument panel and incredibly lifelike flight models. And **Sierra Pro Pilot** features detailed texture-mapped graphics for 29 cities and more than 2,500 airports across all of North America. A total of more than 27 million U.S.G.S. elevation references cover every significant visual reference point to provide coast-to-coast realism.

Whether you're a complete novice or an experienced pilot, **Sierra Pro Pilot** offers a rewarding flying experience. Your virtual co-pilot will help you get off the ground and provide feedback in the air. Air Traffic Control guides you through crowded skies over every major city. The stunning graphics will convince you you've really taken to the skies. And specific flight assignments let you work on maneuvers from takeoff to landing to help you become the world's best armchair pilot!

Fly the Deadly A-10 Thunderbolt II

Fly 24 explosive missions over 84,000 miles of 3D terrain.

Master the weapons and tactics used by real-life A-10 pilots.

Silent Thunder™: A-10 Tank Killer® II

Swoop down in the indestructible A-10 Thunderbolt II and dive into three action-packed campaigns that take you to the Persian Gulf, Central America and North Korea. **Silent Thunder** gives you an incredible combat flight simulation. Either you learn to fly low and slow, and master weapons like a real A-10 pilot, or you'll end up as just another grease spot on some remote mountainside. **Silent Thunder** features more than 84,000 square miles of richly rendered terrain, awesome 3D graphics and incredible sound effects. Plus, you get full Campaign Continuity, so the punishment you dish out on one mission affects following missions.

Red Baron II

**Reserve

Now!**

**The sequel to the most celebrated
WWI flight sim in history!**

At the birth of aerial combat, the skies over Europe filled with airplanes armed only with short-range machine guns. Daring men flew on nine parts courage, one part technology. Aces met each other at distances measured in yards, not miles. And only one WWI flight sim — the original **Red Baron** — has matched the bravery and daring. Now the legend returns.

With the all-new **Red Baron II** you'll fly more than 20 different vintage aircraft in the skies over England, France and Germany. Fly for Britain, France, Germany or the United States in deadly dogfights and close-up, face-to-face combat. Tackle single missions, or immerse yourself in the life of a daring WWI fighter pilot in the all-encompassing Career Mode.

From the graphics to the flight models, **Red Baron II** takes WWI aerial combat simulation to new levels of realism. Advanced flight models faithfully simulate over 15 aerodynamic regions on each aircraft, so damage has a realistic effect every time you fly into battle. An innovative new mission generator creates random challenges with a variety of goals and opponents. Plus, you can fly head-to-head missions via Internet, modem or network, with options that let you fly competitively or cooperatively, in a WWI dogfighting frenzy.

3D Ultra™
MiniGolf

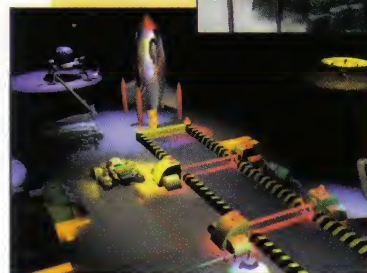

Remember minigolf? Scrambling across the windswept AstroTurf® on a hot summer night, trying desperately to beat your

buddies to the windmill? The putter that looked like it came right out of the Stone Age? The electric-colored balls? Well, **3D Ultra MiniGolf** is minigolf just the way you remember it, only much cooler. It gives you two incredible nine-hole courses, with the vintage holes you love — the Windmill, the Big Shoe, and all the rest — plus a whole bunch of new holes you won't believe! And you can compete with up to four other players.

Every 3D hole is jam-packed with gadgets, gizmos, strange creatures and crazy sound effects that take minigolf to a whole new level of fun. Whack your ball between erupting volcanoes. Bank a putt through a bustling space port. Catapult your ball to the gates of the castle. Watch in disbelief as your ball disintegrates into molten lava or — worse yet — your best friend sinks a hole-in-one!

RUTHLESS CONQUEST AND REAL-TIME MEDIEVAL COMBAT

Lords of the Realm II

This is the country's darkest hour: The King is dead and chaos reigns across the land. The throne is up for grabs. Your army is made up of peasants armed with the crudest of weapons; nothing more than pitchforks, maces and pikes. But they are sworn to your allegiance and, if you lead them well, they will fight for you to the death if necessary.

In the highly anticipated sequel to the original *Lords of the Realm*, you must marshall all of your resources and lead your army into battle. The goal is conquest. Every move you make must be geared toward managing your resources and building an army that is strong enough to conquer neighboring realms before they conquer you. In the end, you're either King or you're dead.

Lords of the Realm II is the ultimate medieval strategy challenge. It includes real-time combat, four-player network support and four computer rivals to create a game even better than the much-acclaimed original, providing hundreds of hours of challenges.

Answer the Call of Battle

Robert E. Lee: Civil War General™

Now you can try your hand at turning the tide in some of history's most famous battles. **Robert E. Lee: Civil War General** puts you in control of the field in seven pivotal Civil War battles. Fight them individually, or as an entire campaign against the Army of the Potomac. Or take on the role of Union generals such as "Fighting Joe" Hooker, George Meade or U.S. Grant in battles ranging from First Manassas to The Wilderness. Whether you play the Blue or the Gray, every battle starts with the elements of each army placed exactly as they were more than 130 years ago. From there, history is in your hands.

Direct individual battles or a complete campaign on the Union or Confederate side.

The Ultimate Role-Playing Adventure

Betrayal in Antara™

The Antaran empire, once ruled by a benevolent king and his consorts, has fallen prey to corruption and decay. Bribery, intrigue, assassinations and deceit are rampant throughout the land. Now, four young Antarans seek to restore the balance of power in their beloved homeland. Their destiny will take them on a long journey to the far eastern realm of the empire. Along the way they will encounter devious plots of manipulation, self-serving political agendas, secret societies and magical challenges.

As the follow-up to the award-winning bestseller *Betrayal at Krondor*, *Betrayal in Antara* was specifically developed as the ultimate fantasy role-playing experience. With an imaginative story line, radical plot twists, well-developed characters and beautiful painted backgrounds, *Betrayal in Antara* is multimedia adventure at its best.

Superior high-resolution graphics include an immense 3D environment with detailed textured maps. Improved Artificial Intelligence within a dynamic third-person, turn-based, 3D tactical system pulls you right into the game. Interconnected story chapters provide visual progress markers and subgoals that make each episode richly rewarding. With your help, characters have an opportunity to cast magic spells and wage battles that could mean the difference between life and death.

the Gorgon's Alliance

The morning sun rises like flames of a funeral pyre, but its light brings no warmth to the ashen faces of Anuire's battle-weary army. While the kings of Anuire clash over their fractured empire, the Gorgon builds his power through bloodthirst — killing the kings and consuming their divinely granted bloodlines. Now, no longer satisfied with the blood of kings, evil madness has driven the Gorgon to consume all the ancient bloodlines of Anuire.

With the abilities of a born king, you command heroes, wizards and mighty armies. It is you who has the power to wage war or preserve peace. You must delve deep into political intrigue and precarious allegiances as you strive to overcome Anuire's greatest foe — and claim your birthright.

Explore the exciting world of *BIRTHRIGHT™*, where armies collide in brutal combat, princes scheme to seize power and wizards plot the conquest of empires. This unique blend of role-playing, battle strategy and real-time combat is the computer extension of the highly successful *ADVANCED DUNGEONS & DRAGONS® BIRTHRIGHT™* box game, by TSR. Includes Internet, modem and network play for up to eight players.

A Bizzare New Adventure

Shivers™ II: Harvest of Souls

Welcome to Cyclone, a bizarre little town on the edge of madness in a remote corner of Arizona. It's not quite a ghost town, but most of the more despicable characters have disappeared. Unfortunately, so have your friends. They spent the summer in Cyclone making rock videos for their band. But now they have vanished without a trace.

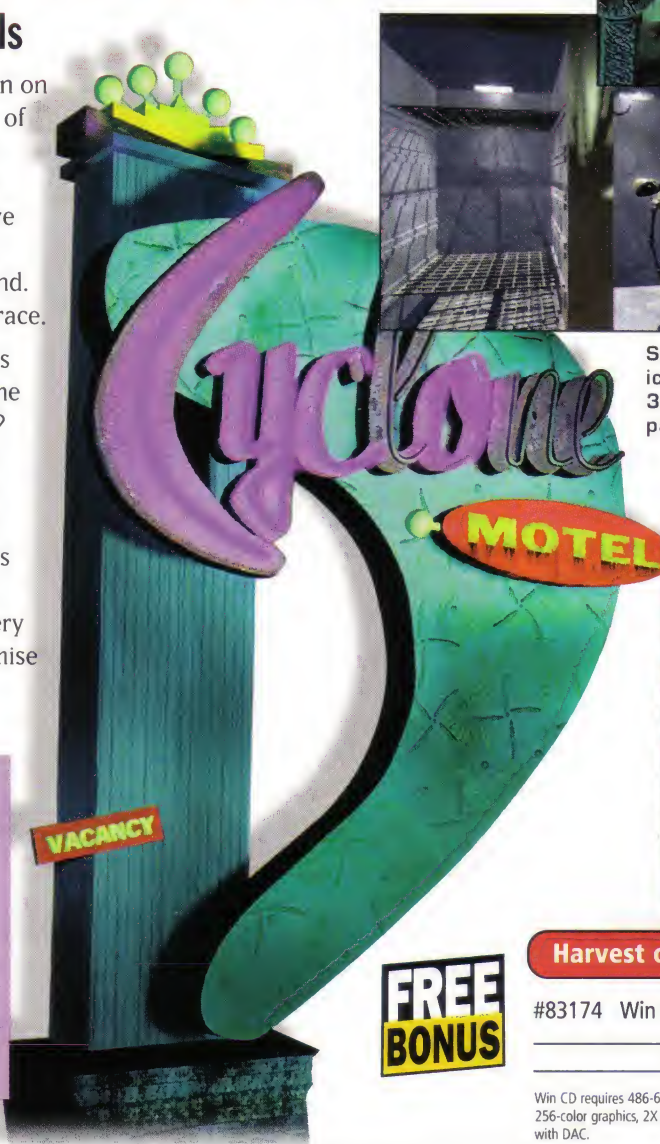

A mysterious masked character who calls himself Darkcloud roams the streets. Is he just another of the desperate townsfolk? Or is he possessed by some ancient, evil spirit? Uncertainty preys on everyone's fears, including yours, as you search for your friends through the twists and turns of the game. Look for clues everywhere. But beware, because danger lurks in every murky corner. And even those who promise help may lead you to your death.

LEISURE SUIT LARRY®

LOVE FOR SAIL!

More Hilarious Miss-Adventures

Al Lowe has found even more ways to put that loveable, singles-scene stealer Leisure Suit Larry into another hilariously unforgettable miss-adventure. In his latest hysterical outing Larry is booked on the world's gaudiest cruise ship, the PMS Bouncy. It doesn't take long for our hero to stumble onto a shipload of beautiful women. Most of them have a lot of fun at his expense, teasing him into thinking he might actually get lucky. Think again!

Although this loveable loser does his best to date each woman, somehow they figure clever ways to cool his ardor. But all is not lost. He does learn something useful from each encounter. Larry finally sets his sights on the ship's gorgeous Captain Thygh. He hopes that this time he can make a "love connection" with her and sail away forever. Good luck.

Love for Sail introduces a host of interface tricks that make playing more fun than ever. Look for the clever new CyberVox 2000™ (add your own commentary), the retro CyberType 2000™ (you actually type commands!), the amazing CyberStar 2000™ (put your picture right in the game) and lots more!

The Newest Gabriel Knight Mystery

"The first time we have actually experienced fear from watching a computer game."

— Computer Gaming World

The Beast Within

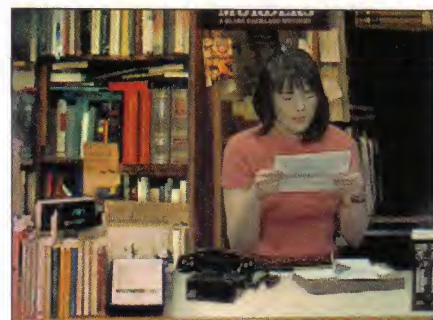

A mystery that spans the ages is about to unfold.... In the heart-stopping sequel to the award-winning *Sins of the Fathers*™, Gabriel Knight, the last in a long line of Shadow Hunters, is dragged into the investigation of the vicious murder of a young girl in Germany. The local police blame a wolf that has escaped from the Munich Zoo, but evidence points to something much more ancient and far more terrifying.

Gabriel's partner, Grace Nakimura, leaves New Orleans for Munich to join in the investigation. She uncovers centuries-old werewolf trials involving King Ludwig II, the Lost Wagner opera, and the Black Wolf.

Award-winning author and game designer Jane Jensen's story features incredible photo-realistic backgrounds and a haunting musical score. It's an extraordinary blend of live-action technology and spine-tingling thrills where Gabriel must find the real killer before it finds him.

Features 600 artistic backgrounds and spine-tingling mystery utilizing over 80 different locations.

Don't just watch or read about events, explore them with interactive simulations.

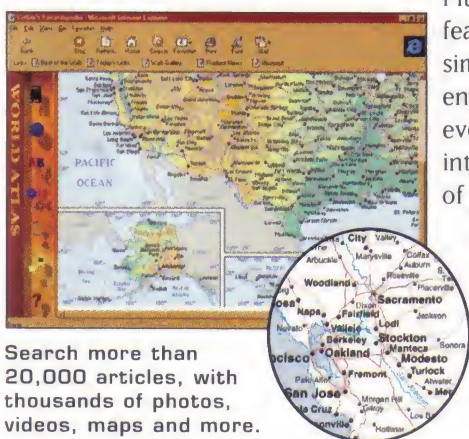

Collier's Encyclopedia '98

Combine the power of knowledge represented by more than 100 years in the encyclopedia business, with the latest multimedia tools and the ever-growing reach of the Internet and you create a stunning new power: the power to learn.

Whether you're writing a school report on unusual forms of marine life, preparing a business-oriented summary of the changing geo-political map of Eastern Europe, or poking around the Internet to satisfy simple curiosity, **Collier's Encyclopedia '98** puts the power to learn at your fingertips. It packs three CDs with thousands of photos, hundreds of videos and maps, and more than 21 million words in an amazing array of more than 20,000 articles. Excalibur!, the most powerful search engine available, gives you the tool you need to navigate such a broad scope of information with ease.

But **Collier's Encyclopedia '98** goes beyond mere multimedia presentations. It includes thousands of carefully selected links to Internet web sites. As a result, the information available to you is extended almost infinitely.

Plus, **Collier's Encyclopedia '98** features a broad range of interactive simulations in geography, music, physical sciences and more. So you can actually explore events and participate in a variety of exciting interactive experiences instead of just reading about them.
